Career Objective

Aspiring Frontend Developer skilled in React, JavaScript, HTML, and CSS, with a strong grasp of UI design and responsive development. Trained in full-stack technologies but now focused on creating clean, user-friendly interfaces and integrating APIs. Seeking to contribute to a modern frontend team and grow as a React developer.

Experience

Software Engineer Intern

May 2024 – July 2024

Zarooz Services Private Limited

- Designed responsive front-end interfaces for a food delivery platform.
- Supported backend tasks, worked with databases, tested features, and collaborated with senior developers.

Technical Skill

- **Frontend Development:** HTML5, CSS3 (Flexbox, Grid), Bootstrap, JavaScript (ES6+, DOM, Events), ReactJS (Hooks, Components, State Management), Responsive Web Design
- **Backend:** Java, Spring Boot (REST APIs, MVC)
- **Database:** MySQL (CRUD Operations, Joins, Queries)
- **Tools & Technologies:** VS Code, Postman

Projects

Online Doctor Consultation Scheduling System

[doc-clinic-app.netlify.app](#)

Developed a responsive doctor appointment system with booking validation, department/slot selection, and automatic token generation. Built a doctor dashboard with filters and a clean, user-friendly UI for smooth patient-doctor interaction.

- **Frontend:** HTML, CSS, JavaScript
- **Features:** Booking form, live appointment updates, token system, doctor dashboard, filters, responsive UI.

Smart Shopping List Manager

[list-mate.netlify.app](#)

Built a responsive React-based list manager with multiple lists, item CRUD operations, filters for purchased/pending items, and localStorage support. Designed a clean UI with smooth user interactions.

- **Frontend:** HTML, CSS, JavaScript, ReactJS, LocalStorage
- **Features:** Add/Delete lists, add items, filter items, responsive UI

Hollie Word Guessing Game

[gamehollie.netlify.app](#)

Created an interactive word guessing game with auto-generated words, clues, and underscores. Users guess letters, and each wrong attempt removes a letter from **HOLLIE** (lives). Game ends on correct guess or when all chances are lost.

- Designed engaging, user-friendly UI using HTML/CSS, JavaScript.
- Implemented dynamic clue and letter display for better interactivity

Handmade Jewellery E-Commerce Web App

[customised-jewels.netlify.app/](#)

Designed product pages with images, details, and prices. Added cart features for adding/removing items. Connected frontend and backend to store orders and customer info. Ensured mobile-friendly and user-friendly design.

- **Frontend:** HTML, CSS, JavaScript, ReactJS
- **Backend:** Java, Spring Boot, MySQL
- **API & Image Handling:** REST APIs tested via Postman

Certification

Full Stack Java Developer

Besant Technologies — Jan 2025-Sep 2025

Training includes HTML, CSS, JavaScript, ReactJS, Java, Spring Boot, MySQL, and REST API development.

Education

Bachelor of Technology in Computer Science and Engineering

2019-2023

Bharathiyar College Of Engineering And Technology, Karaikal.
